The relationship of ideas to management action. [By] Renato Tagiuri ... Paul R. Lawrence ... Rosalind C. Barnett ... Dexter C. Dunphy* 1968 bachelor thesis from the year 2018 in the subject communications movies and television grade 10 university of dusseldorf heinrich heine anglistik und amerikanistik language english abstract this bachelor thesis aims to answer the following research question is it possible to morally absolve dexter not only from a utilitarian and a kantian point of view but are there also aesthetical aspects influencing and reinforcing the viewer's attitude as the question consists of two parts the analysis will correspondingly be carried out in two steps the first part will investigate if the viewer is enabled to morally justify dexter's behavior by positively identifying with him and if this dynamic is supported and reinforced by stylistic devices such as framing and mise en scène the second part will investigate dexter's activities on the basis of the two abovementioned ethical theories and apply these to a selection of scenes from various seasons of the series unlike the article from dexterdaily.com which suggests that dexter may be morally absolved by both utilitarianism and kant's ethical theory a preliminary assumption of this thesis is that dexter might be offered moral amnesty by utilitarianism rather than by kant

Dexter Morgan. A Moral Murderer? 2021-04-07 lewis anthony dexter 1915 1995 pioneered the use of specialized interviewing as a tool in the social sciences he argued that interviewing persons who have specialised information about or who have involvement with any social or political processes is different from standardised interviewing in elite interviewing the investigator must be willing to let the interviewee teach him what the problem the question or the situation is he demonstrated that interviewing was a useful tool but he also argued that it was not always the most appropriate method for revealing the information required in elite and specialized interviewing decades of his practical experience of both how to interview and how to use interviews was distilled into a readable yet rigorously analytical book first published in 1969 it remains as good a guide to the subject as the 21st century researcher can find

Logic and Program Semantics 2012-04-26 master s thesis from the year 2009 in the subject communications movies and television grade a excellent stockholm university jmk department of journalism media and communication language english abstract in this study the television crime series dexter is analysed in its significance to create a feeling of sympathy for a serial killer that is here exemplified by the analyses of the title character and protagonist dexter morgan deriving from this apparently contradictory presumption the main objective of the study is thereby to examine to what extent the conception of the series and its form of representation contribute to this alleged effect and which media devices can be considered for this purpose as a starting point the theories of social constructionism and frame theory are to be analysed to show what we know and how we gain our knowledge about crime and criminals from the real life and those in fictional narratives the achieved findings of current media frames of serial killers in fiction and non fiction reveal that there are differences in the representation of serial killers in the mass media but the tools which are used to establish those frames are comparable further by reconciling these existing frames with the frame the series dexter generates of a serial killer a range of variations are identifiable the main finding is that the form of representation often violates genre expectations of the audience and also hitherto familiar frames of serial killers are questioned by the series concept and challenges the viewer in some way in order to promote an effect of sympathy due to the quite innovative character of the series its investigation might provide new input in the field of media and film studies of television crime narratives key words crime series dexter serial killer sympathy social constructionism frame theory media frames

Automata and Computability 2013-11-11 about the book dexter broke new grounds for showtime in multiple ways it debuted strong with more than 600 000 viewers during the premiere and its finale set a showtime record with an audience of over a million people however dexter's success was not strictly a matter of numbers serial killers are traditionally villains in tv and film but author jeff lindsay created a serial killer who lived in more shades of grey his original novel darkly dreaming dexter allowed the reader to sympathize with main character dexter morgan and the show maintained the book's darker tones dexter embraced the concept of the anti hero and took it to further extremes than most shows are willing to that is one advantage to the show airing on showtime instead of a broadcast network because the show creators have more creative freedom without worrying about censors editors recut the show for airing on cbs after the ratings success on showtime and due to programming holes left in the cbs schedule from the writer's strike in 2008 dexter is currently entering its seventh season on showtime meet the author dave beaudrie is a graduate and valedictorian of michigan state university with a b a in advertising he also studied theatre and has performed in multiple productions around the country he is

a professional screenwriter as well with several projects either produced or in pre production he is licensed as a security specialist in the state of california and worked in the field for several years beaudrie is an avid mixed martial arts fan and has written extensively on the subject he writes comedy as well under a pen name and resides in los angeles excerpt from the book the casting of dexter was vital to the show s success and producers found a star in michael c hall fresh off his work in the hbo series six feet under and an accomplished stage actor hall had proven himself worthy of emotionally demanding roles but the question remained as to whether he could anchor a series himself the answer was a resounding yes as hall s intense performance created a cultural icon the likes of which hadn t been seen on television before hall was charismatic and funny even while playing a relatively emotionless character without a real sense of humor the supporting cast was up to the task as well with jennifer carpenter and julie benz standing out as the two women in dexter s life carpenter brought a humor and neurosis to dexter s foster sister debra that was an effective counter balance to dexter s stoicism benz s rita was a good hearted woman who desperately wanted to love dexter but didn t know if she knew how dexter first used rita as a smokescreen to appear normal to the outside world but eventually developed a genuine affection and sense of responsibility for both her and her kids which he himself thought he was incapable of doing the cast was rounded out by david zayas as angel the closest thing dexter has to a friend in his life and erik king as sgt doakes who suspects dexter of illegal activity but can t prove anything lauren velez played dexter s flirtatious superior lt maria laguerta who had a bone to pick with debra and who was often a better politician than a cop dexter s conscience is kept in check by the memory of his adopted father harry played warmly by james remar dexter embraced the concept of the anti hero and took it to further extremes than most shows are willing to that is one advantage to the show airing on showtime instead of a broadcast network because the show creators have more creative freedom without worrying about censors editors recut the show for airing on cbs after the ratings success on showtime and due to programming holes left in the cbs schedule
